HIGH INTENSITY DIODE LASER HAIR REMOVAL

QUADLAZE PRO: REDEFINING LASER HAIR REMOVAL EXCELLENCE

Unveil a new era in laser hair removal with the QuadLAZE Pro—an advanced high-intensity diode laser device meticulously engineered to revolutionize your hair removal experience. With cutting-edge technology, unparalleled performance, and remarkable versatility, the QuadLAZE Pro sets an industry standard, ensuring precision, comfort, and results like never before.

KEY FEATURES

- High-Intensity Diode Laser Hair Removal
- Super High Power - 4000W
- Short Pulse Duration- 5-100MS
- Achieve rapid treatment cycles while maintaining precision and client satisfaction.
- Super Long Life Span - 100 Million shots within two years
- Super Cooling System
- Dual-Head Powerhouse
- Impressive Power Spectrum: 1200w+2000w 4 Wavelength Diode Laser
- Treats All Skin Types
- Suitable For Most Hair Colors
- Multi-Wavelength Precision
- Fluence Flexibility
- Uniform Energy Distribution
- Innovative Temperature Control
- Elevate efficiency with a frequency range of 1 to 20Hz
- Sleek Interface and Mobility
- Spot Size: 12*23 Spot Size: 12*12
- Easy Operation

Treatment Head Introduction

OUTPUT POWER:

2000W ,1200W, 800W, 600W(Optional)

BARS:

USA imported laser bar, 600-2000W laser-high peak power, No limitation within 2 years.

DUAL-HEAD POWERHOUSE

Designed for efficiency, the QuadLAZE Pro offers two interchangeable treatment heads—a 1200W (12mmx12mm spot size) head for delicate areas like lips, face, chin, and hairline, and a robust 2000W (12mmx23mm spot size) head for larger regions like thighs, calves, bikini, underarms, and arms. This duality empowers practitioners to effortlessly navigate diverse treatment zones with utmost efficacy.

Separate Treatment Head More Hygienic

WAVELENGTH

1064nm+940nm+808nm+755nm

2000W

Spot Size (12*23)

1200W

Spot Size (12*12)

755NM WAVELENGTH (ALEXANDRITE LASER)

The penetration depth of 755nm is a little shallower than the other options. It is effective for light-colored and thin hair, especially for superficially embedded hair in areas such as the upper lip.

940NM WAVELENGTH (DIODE LASER)

This is a relatively newer wavelength that is also well-suited for all skin types. It combines the advantages of both the 808nm and 1064nm wavelengths, making it versatile and efficient.

808NM WAVELENGTH (DIODE LASER)

808nm is clinically proven as the best wavelength for hair removal where it targets the bulge and bulb of the hair follicle, making it ideal for treating the arms, legs, cheeks, and beard.

1064NM WAVELENGTH (ND:YAG LASER)

The penetration of 1064nm is more profound and offers benefits deeper than the 808nm option, where it targets the bulb and papilla of the hair follicle. It is effective for dark skin, thick hair, and obese people, especially for deeper embedded hair in the scalp, armpits, and pubic regions.

SUPER COOLING PROWESS

Our innovative super cooling system ensures a staggering 8 hours of continuous operation without the need for intervals. Say goodbye to interruptions—seamlessly glide through sessions, offering clients uninterrupted comfort and exceptional treatment quality.

PRECISE PULSE CONTROL

Experience unparalleled control with a pulse duration of 5-100MS. Tailor treatments to individual needs, optimizing outcomes and minimizing heat throughout the skin. The pulse duration determines how long the energy from the laser is delivered to the targeted hair follicles. Different hair colors, skin types, and treatment areas require varying pulse durations to achieve optimal results while minimizing the risk of adverse effects.

ENDURANCE BEYOND COMPARE

With an astounding lifespan of 100 Million shots per treatment head, the QuadLAZE Pro is engineered for longevity, assuring years of dependable performance, treatment after treatment.

SUITABLE FOR MOST HAIR COLORS

SUITABLE FOR ALL SKIN TYPES

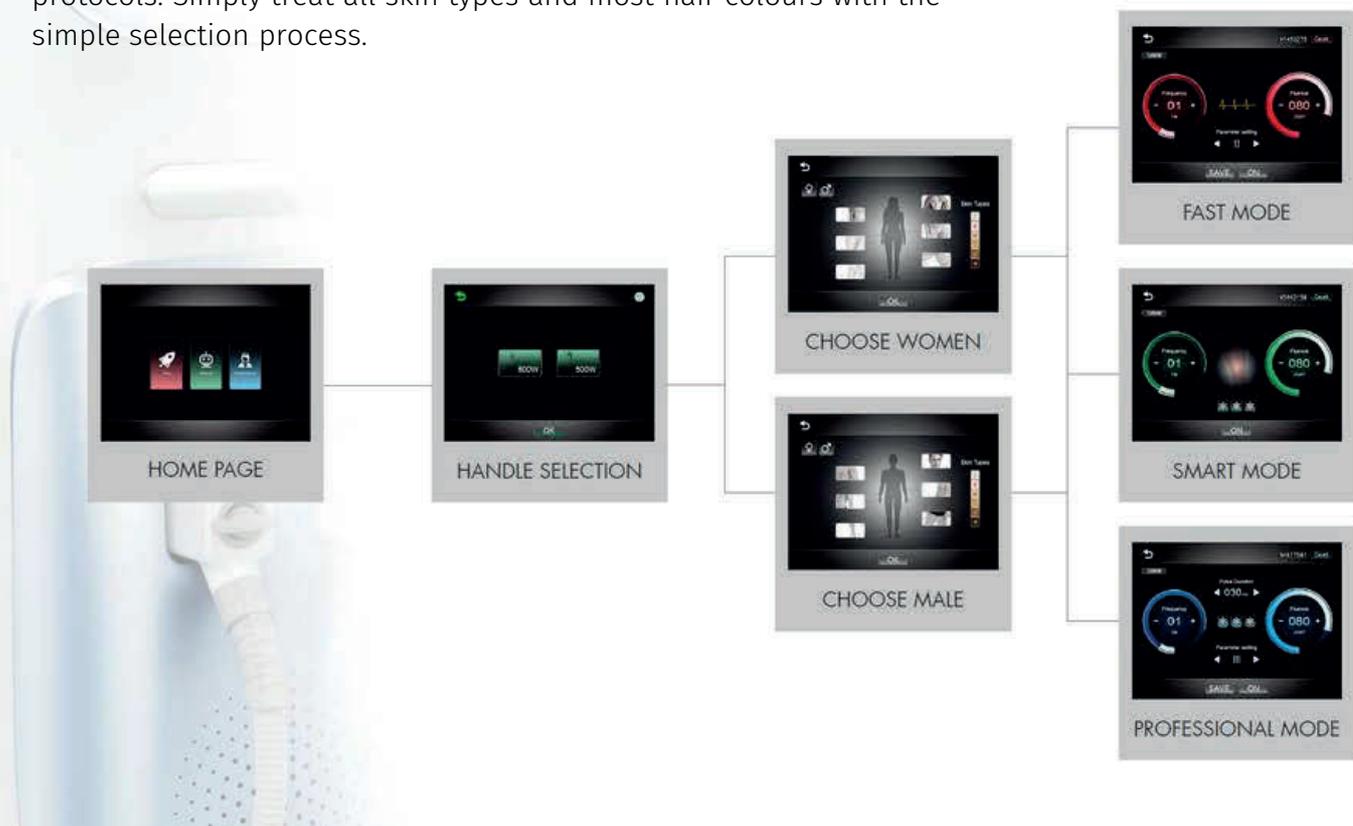

IMPRESSIVE POWER SPECTRUM

Choose from laser handle output powers of 600W, 800W, 1200W, and 2000W, culminating in an overall device power of 4000W. Experience unparalleled performance, ensuring exceptional results.

INTELLIGENT OPERATING SYSTEM

Say goodbye to old operating systems and hello to the all-new easy, intelligent QuadLAZE Pro system. With simple selection processes and functionality to ensure flexibility and simplicity for all treatment protocols. Simply treat all skin types and most hair colours with the simple selection process.

12 INCH
MULTI COLOR TOUCH SCREEN

1200W/2000W
DOUBLE HANDLE

ABS MATERIAL CASE

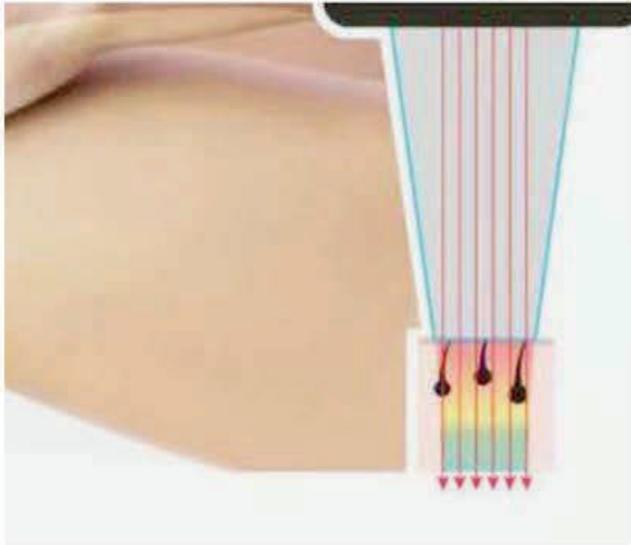

360° SILENT WHEEL

SLEEK INTERFACE AND MOBILITY

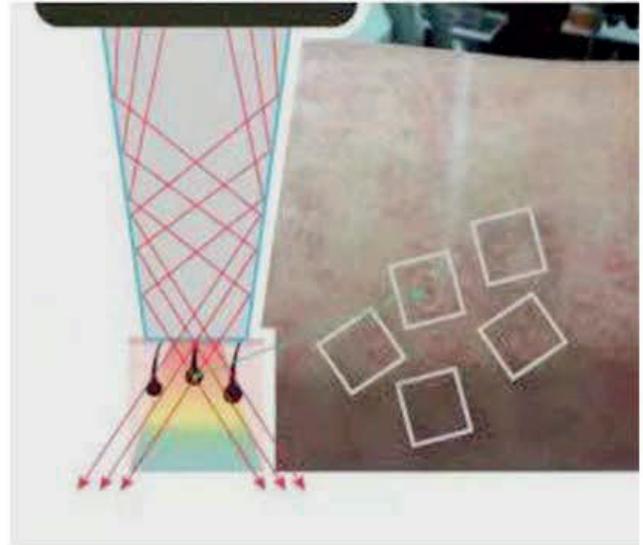

Navigate with ease using the 12-inch multicolored touchscreen control panel. Effortlessly maneuver the device with 360-degree silent wheels, enhancing portability and convenience.

VCSEL TECHNOLOGY: UNIFORM ENERGY DISTRIBUTION

VCSEL technology uniformly disperses energy across the skin, increasing efficiency and minimizing discomfort. Bid farewell to uneven treatments and welcome a new era of painless procedures.

Using VCSEL technology, the energy is distributed uniformly across the skin area, which creates greater efficiency & less perceived pain.

Lasers without VCSEL technology, the energy is concentrated in the centre of the skin area, resulting in pain, irritation & risk of burning.

BEFORE AND AFTERS

Clients receiving treatment on the QuadLAZE Pro diode laser experience incredible results regardless of skin type and hair color.

PEP FACTOR™ + MedSpaEquip

PEP FACTOR TREATMENTS FOR SKIN

PepFactor Skin is one of the most advanced cosmetic skin systems available today. Formulated by doctors and scientists, PepFactor contains the world's first uniquely formulated treatment for vibrant, glowing, and more youthful-looking skin. PepFactor visibly improves overall skin appearance for a more youthful and radiant look.

PepFactor Skin treatments come in a set of 6 treatments per box. Each therapy can earn you up to \$500 and provides the best skincare for your clients.

PepFactor Skin kits are the perfect addition to offer as a treatment with your DermAnalysis Pro device.

PEP FACTOR TREATMENTS FOR SCALP

Hair loss is a common problem that can leave many feeling self-conscious. PepFactor promotes thicker, vibrant, and luscious-looking hair. Enriched with Copper Peptide, antioxidants, and our proprietary PepFactor ingredients, PepFactor Scalp helps encourage more voluminous, younger-feeling hair, with most treatments showing visible results after just four weeks.

PepFactor Scalp treatments come in a set of 6 treatments per box. Each therapy can earn you up to \$500 and provides the best skincare for your clients.
